ADD PRODUCTS AND SERVICES

Sellers may list a single product or service in multiple related categories by creating separate entries with the same or different descriptions.

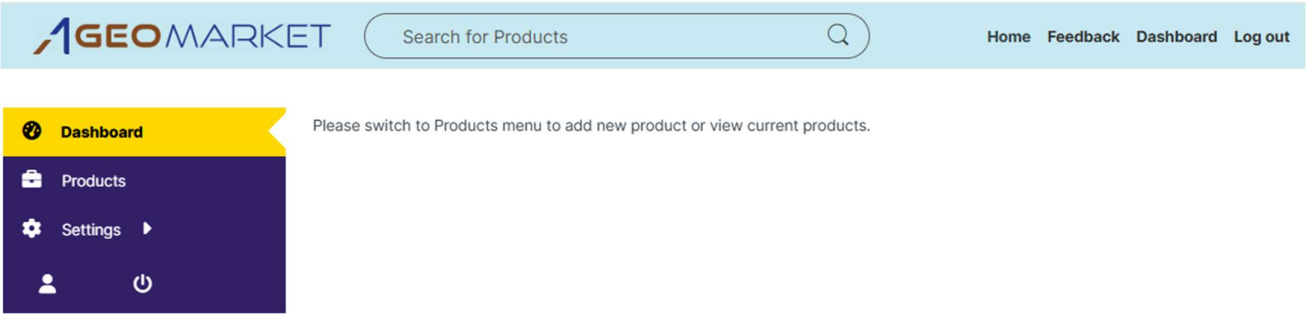

Products and services must not be listed in unrelated categories. Irrelevant listings may be removed without notice.

WHAT TO PREPARE BEFORE ADDING A PRODUCT OR SERVICE

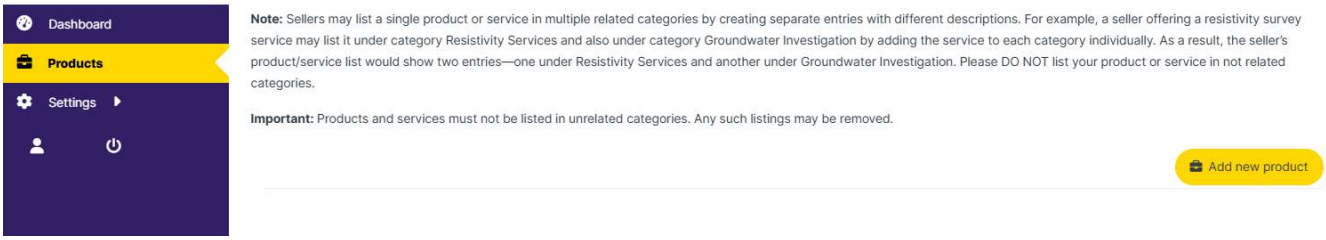

1. **Product/Service Name**
2. **Image File** – Ensure the image size is under 2MB. For best results, use a resolution of approximately 800 x 500 pixels.
3. **PDF Brochure (Optional)** – Include a detailed document if available.
4. **Website Link** – Provide the URL leading to the relevant product or service page on your website.
5. **Short Description** – A concise summary (maximum **500 characters**, including title and description)

HOW TO ADD A PRODUCT OR SERVICE

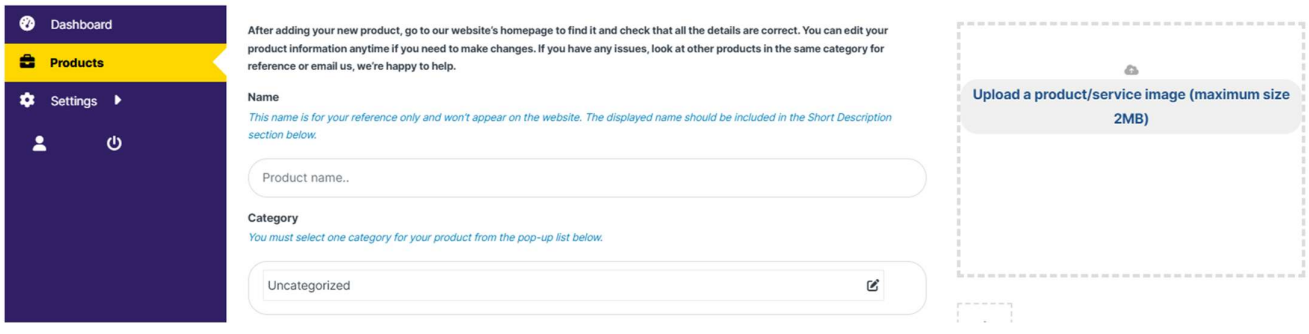

1. Log in to your account using username provided and the password you created.

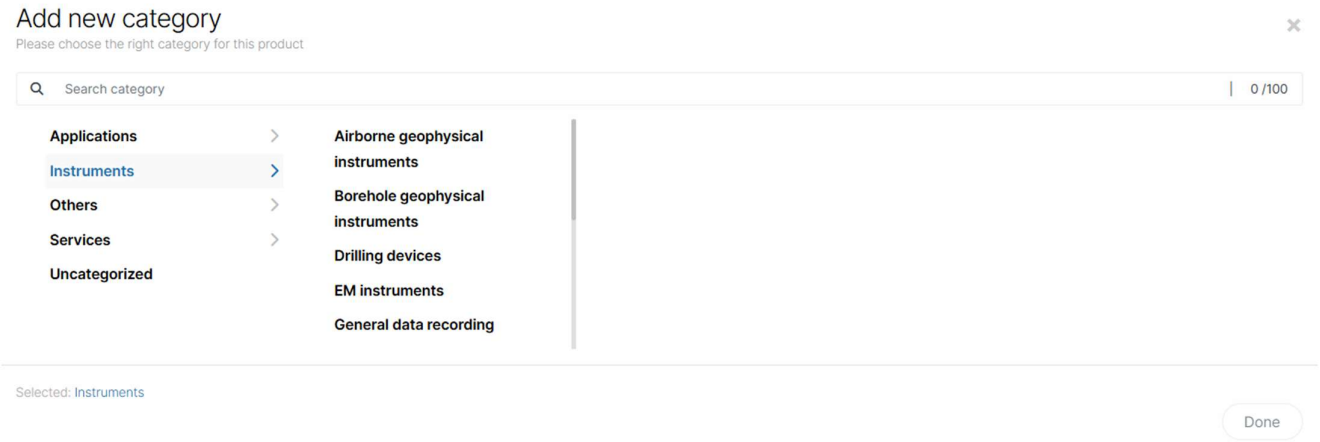

2. On the left-hand panel, click **Products** to view all products or services you have added.

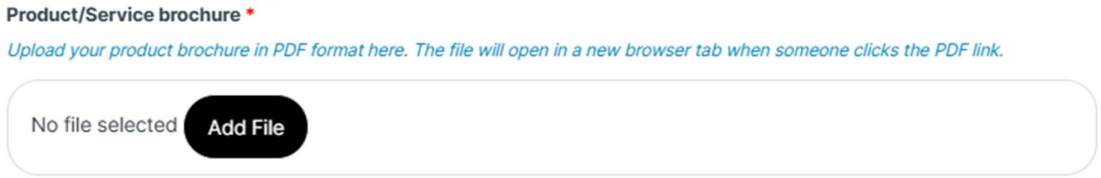

3. Click **Add New Product** on the right-hand side. The **Add Product** page will appear.

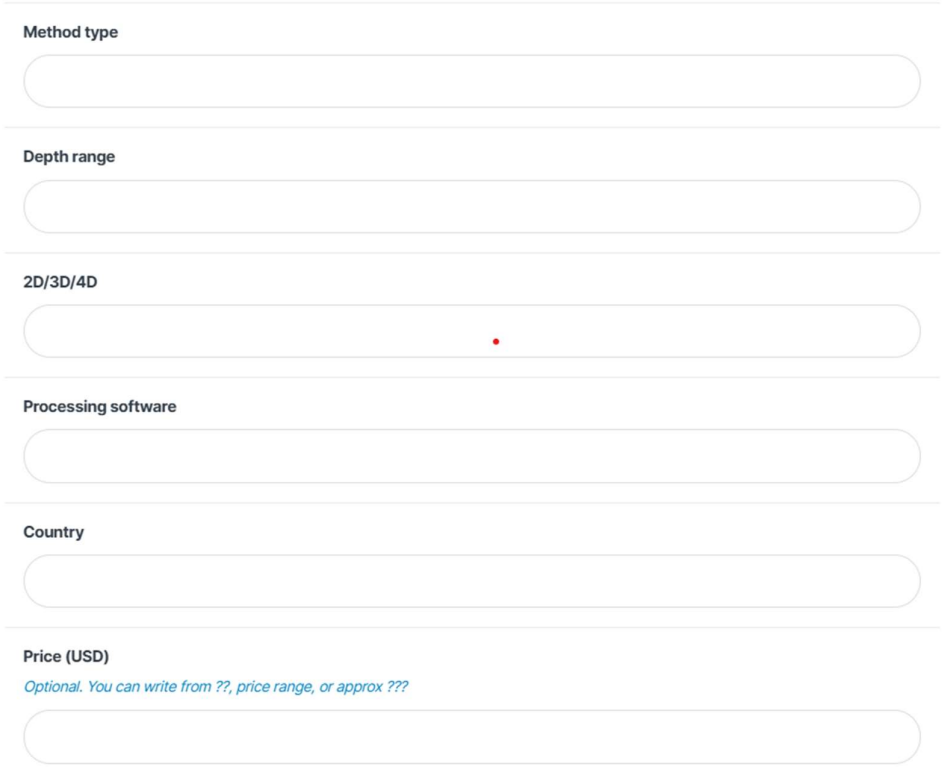

4. On the right box, **Upload the Product Image**. Only one image can be displayed per product or service.
5. Enter the **Product Name**.
6. Select the **Category** for your product then click **Done**.

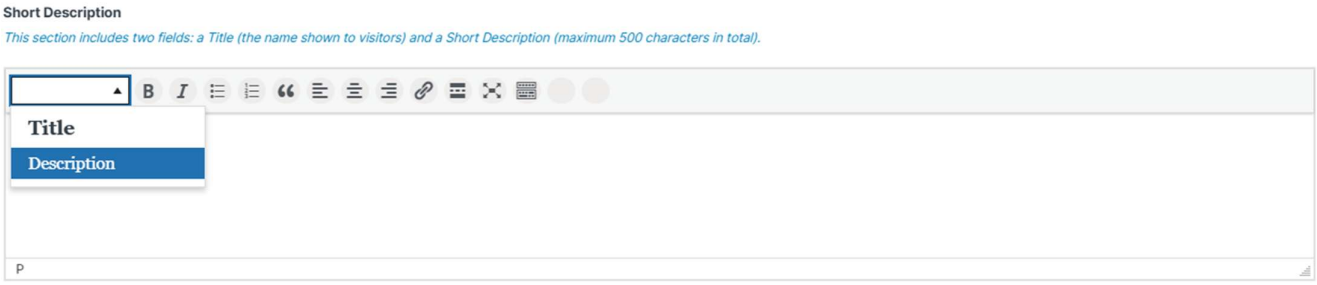

7. Upload the **PDF brochure** for your product or service (if applicable).

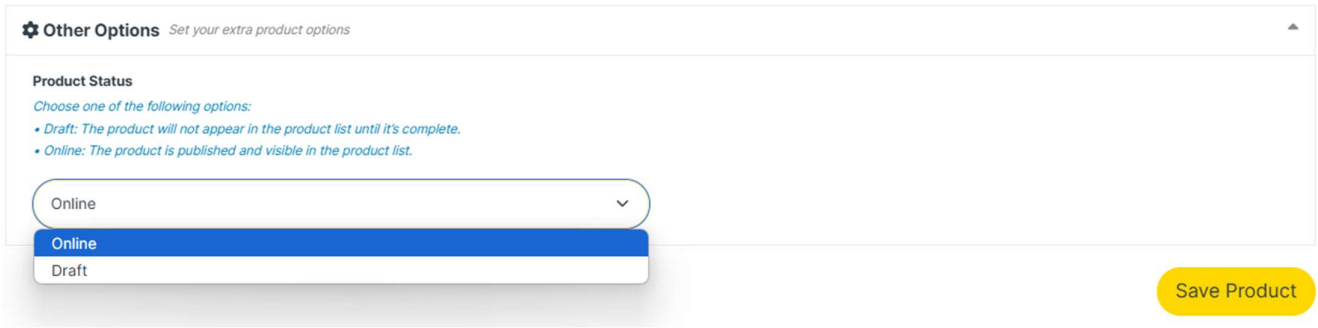

8. Add the **Website Link** that leads directly to your product or service page.
9. Enter all **relevant parameters** for the product, as required for your chosen category.

10. Fill in the **Short Description.** Use the dropdown menu to choose the appropriate format for the Title or Description.

11. Choose the status **Draft** to save your work for later editing or **Online** to publish the product or service immediately.

12. Click **Save Product** to complete the process.

13. Return to the **homepage** of a1-geomarket.com and verify that your product or service is listed correctly.

14. To edit an existing product, go to the **Products** page in your dashboard, hover over the product name in your list, and click **Edit** to update its information.
